

I think that it is imperative that the FCC stop the broadcast of Sinclair Broadcasting's anti-Kerry documentary. This comes days before the election is a clear example of the dangers of media consolidation.

This is clearly a pro Bush advertisement—public airwaves should not be used for such a purpose. Public airwaves should be used to enhance our educational system, broadcast public forums, and generally inform the public in an unbiased manner. It is a threat to the interest of our democracy, to allow our public airways, to be bought and used for promoting an individual politicians interest. That is a danger to the future of our country!

Please do not allow this self serving abuse of financial power, masked as a news article, be shown on the public airwaves. We need to strengthen media ownership rules to protect abuses from occurring.

Thank you,

Fannie L. Sarr
